PROFILE

Engineering leader with an Entrepreneurial mindset and a 10 year track record of building product & product teams. I have experience building and scaling products for early and late-stage startups primarily in edtech, and fintech domains. I enjoy working at the intersection of product & tech and specialize in building & scaling distributed systems.

KEY COMPETENCIES

Java, Kotlin, Python

Microservices, CI/CD

Kubernetes, Kafka

Typescript, Javascript, React

Postgres, DynamoDB

Cloud, AWS, Azure, GCP

PROFESSIONAL EXPERIENCE

Neovarsity UG

Feb 2023 - Present

Co Founder & CTO

- Responsible for hiring, building and maintaining the product & the platform.
- Bootstrapped, built & scaled the product to 1k+ users.

Finmid GmbH

Sep 2021 - Sep 2022
